ANNOUNCEMENTS FROM CITY HALL

Expanded hours are coming to City Hall. Starting March 31st, City Hall will be open for business from 7:30 a.m. to 5:30 p.m. The expanded hours are an experiment to determine if the increased time will prove to be a benefit to our citizens and utility customers. City Hall staff will work flexible schedules to cover the increased hours. After a 30-60 day period, the City will evaluate the expanded hours to determine if it was a benefit to our citizens. We hope this will be utilized by our citizens and that they find it easier to do business with the City.

Several openings on boards and commissions are available, or are anticipated in the near future. If you are willing to serve the community in a volunteer position, please consider serving on the Park Board, the Planning and Zoning Commission and the Waynesville Community Foundation Board. All of these positions take an hour or two per month. Meetings are held in the City Hall and are posted for public information. You need to be a citizen of Waynesville, living within the City limits. If you are interested, please contact City Hall at 774-6171 and leave your contact information. Thank you for considering volunteering.

PULASKI COUNTY HEALTH DEPARTMENT

The Pulaski County Health Department was established in 1950 to provide public health service to County residents. It is supported by local, state and federal tax monies. The Health Center in Crocker has been the home to the Agency since 1975, now in its 39th years of serving County residents.

The mission of the Health Center is to offer and provide quality community health and environmental services in a fair, compassionate and timely manner to enable all people to reach their fullest potential. The Center provides the community a variety of services, including immunizations, women's wellness exams, WIC, communicable disease testing, treatment and surveillance, also pregnancy testing and temporary Medicaid cards, basic health screenings, blood draws, vital records, CPR classes, community health education, car seat inspections, free fitness facility and environmental public health services.

COLD WEATHER UPDATE

The City and our residents have experienced higher than normal utility bills due to the cold weather. The City's wholesale electric bill for January was \$508,072, which was 86% higher than January of 2013, that bill was \$271,375. Our higher bill reflects increased usage of the City as a whole, plus the rate increases we experienced due to moving to another supplier. On a positive note, our natural gas rate has remained relatively stable. The City hit a new peak for natural gas on January 6th.

The Street Department and other employees responded well to several snow events during this winter. As comparison to the severity of the weather, the City used 135 tons of salt and many tons of sand this winter compared to 100 tons over the last three years.
