Follow prompts on the app and park in the 'furniture zone' out of the way of pedestrians and ensuring ADA compliance.

Vehicle waits for next rider or is moved by the 'Fleet Manager'

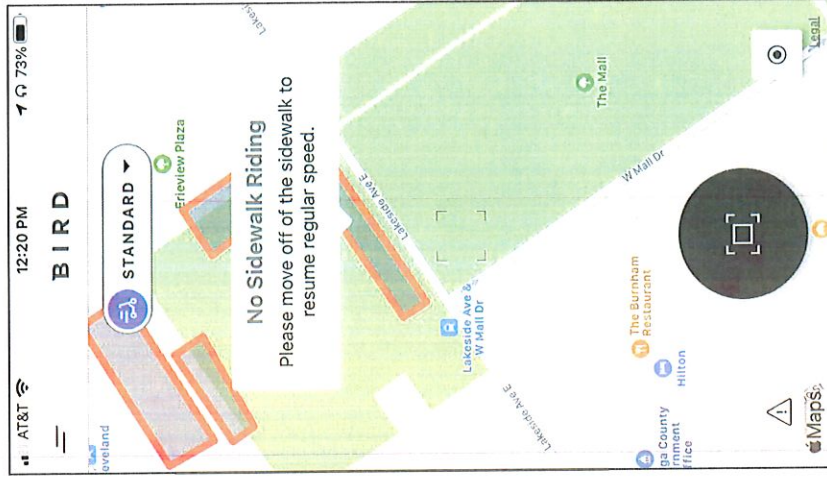

Slow zone

When riders enter a planned slow zone (e.g. a crowded area) they are notified by a vehicle sound and in-app notification before their vehicles safely reduce speed.

Slow Zone

No-ride zone

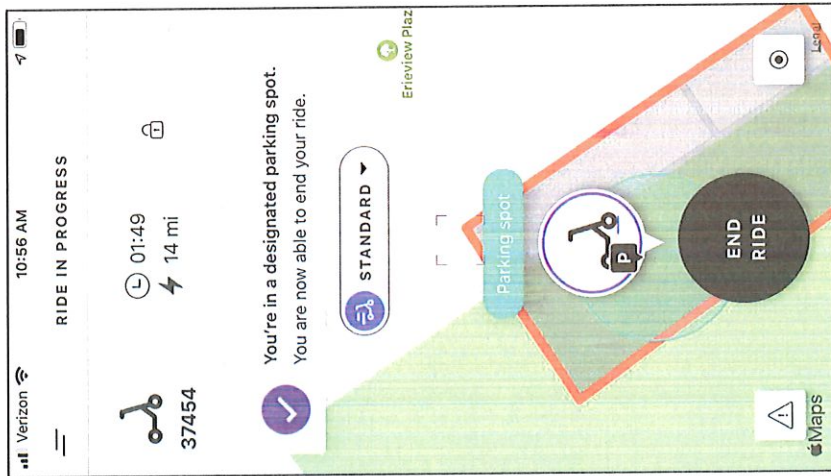

When riders enter a designated no-ride zone, vehicles will safely slow to a complete stop. Riders are notified by a vehicle sound and an in-app notification.

No Ride Zone

Parking zones

Bird can create designated parking zones within the app. If riders are not within a set zone they'll be directed to a nearby area where parking is permitted.
